

(1. Titel) Whistleblowing in Switzerland and / a crowdfunding initiative called “Fair Trial and Swiss Bank Secrecy” / as a global precedent with a global impact!

(2. Elmer Mic) This Crowdfunding initiative has the purpose /

- Firstly, to fight the abusive practice of the Swiss judicial system not to give a whistleblower and his family a fair trial for more than 14 years /
- Secondly, to request a ruling of the European Court of Human Rights in respect of fair trial and whistleblowing. /
- And lastly already with this video to educate civil society and release more information (e.g. Donald Trump etc.)

Receiving a fair trial is the key issue in any court room in this world / but numerous whistleblowers globally have not been treated fairly by the judicial system for decades/ (Chelsea Manning; Herve Falciani, Brigitte Heinisch, Stephanie Gibault; Yasmine Motarjemi, etc.). / A fair trial is crucial and key fundament of Human Rights!

(3. world Champion) Switzerland is the world champion especially due to its financial industry and Swiss Bank Secrecy / to systematically prosecute in any area people / who are conscientious objectors / when making abusive practice known to civil society./ To make this possible, / Switzerland does not have any whistleblower protection law in place in the private sector./

(4. Judges) Swiss whistleblowers do not receive systematically a fair trial in Swiss Courts for various reasons. / For instance due to the fact / that judges are elected by political parties and have to pay 10 to 15 % of their annual salary /to the party which supports their election! /

Swiss Authorities but also Swiss Insider know / that not only political parties who might influence a court ruling / but also multinational conglomerates / because headquarters of global key industries are domiciled in Switzerland. / They do have a powerful position in the tiny country of Switzerland. / The extremely liberal law allows the Swiss

Criminal system / to stretch, bend and abuse the governing law in favor of the powerful. /

(5. industries) It is a known fact / that these industries are key players in Switzerland but also globally in the field of / finance, pharmaceutical, food, commodities, gold refinery, freeports / and have a major influence on the outcome of a court ruling / because Switzerland is not only a tax haven, / it is also a legal haven, / a self regulatory haven for industries such as Swiss Financial Market Supervisory Authority FINMA which is a self-regulatory body in the banking industry / and all that for the powerful. /

It is crucial for any so-called secrecy jurisdiction to be a tax and legal haven like Switzerland / in order to attract and protect international organization such as / FIFA, Olympic Committees, World Economic Forum Davos, etc. /

(6. protector) It is the judicial system of a secrecy jurisdiction / which acts as a protector of multi-national conglomerates, / ultra and high net worth individuals and simply in order to be in line with Swiss national interest. /

(7. Bild Weltwoche) In my legal case it is not only Julius Baer as a multi-national conglomerate / but also the Swiss financial industry, / the Swiss media / and most importantly the dubious law Swiss Bank Secrecy / which wanted me to be publically denounced / as data thief, blackmailer, Neo Nazi, mental sick person, a person who goes for revenge / and even as a terrorist / because I returned back to Switzerland / in the lions cage / to fight in the court room for justice. /

(8. death penalty) As a matter of fact, / whistleblowing in the financial industry of Switzerland or any tax haven / is considered a capital crime. / A capital crime which must be punished harshly / with the social, financial and professional death of any person / who dares to make the truth public in this case / about the fine or call it better / the dubious Art of Swiss Banking to global civil society.

(9. Witch hunt) Swiss authorities not only go after any whistleblower in any Swiss key industry, / they also go after his/her family members in the sense of a

witch hunt. / The family has to become an outlaw! /In my case there are some of the following retaliations / my family had to endure:

- 1) The Swiss Police protected the severe harassment of my family by Julius Baer / which was only addressed by prosecution after 7 years / the crime had been committed,
- 2) No investigation at all in respect of the Cayman data delivered to Swiss authorities / and turning down systematically approx. 60 court complaints I filed, /
- 3) 217 days of solitary confinement / and no compensation even though the court trial was won by my lawyer,
- 4) A criminal investigation against my wife / supposingly having violated Swiss Bank Secrecy / in order not to allow her to visit me in prison for 187 days / when I was in solitary confinement,
- 5) Destroying my health / for instance due to a break down in the court room on December 10th, 2014 (sarcastically the Human Rights Day of 2014) / because the judge forced me to leave the hospital I stayed already for three weeks/ to attend the court proceedings.
- 6) The Coverage of court fees of USD 350`000 / even though the legal case ended with an acquittal at the Federal Court of Switzerland /
- 7) Lastly, A defamation campaign of many Swiss newspapers protected by the judicial system / and even performed by head judges publicly calling me an ordinary criminal/.

(10. golden Calf) Not only I but also the family did not receive a fair trial due to the fact that / I dared to challenge to Golden Calf of Swiss Bank Secrecy. / The judges` and prosecutors simple methodology was / not do consider exculpatory and inculpatory aspects with equal care / as requested in the law. / All of the exculpatory aspects of my legal case were simply ignored by the judges and prosecutors / in order to prolong the case, / to justify and maximize the punishment or simply to give the family a hard time.

(11. judges attempt) There are a few

- 1) The deliberately withholding of the confiscated Cayman employment contract for 9 years by the Prosecution Office in order to make me an employee of Zurich`s Bank and justify the application of Swiss Bank Secrecy /
- 2) Ignoring the severe post-traumatic stress disorder I had / caused by Julius Baer`s harassment and / even falsifying a psychological evaluation carried out by the Forensic Expert of the Courts /
- 3) Ignoring the several emails with death threats we might have received from culprits related to Julius Baer
- 4) Ignoring the fact that Julius Baer, Stalkers and Zurich`s Prosecutors and Judges made so much pressure on my 11-year-old daughter / that she made the judges responsible in her suicide note / after two prosecutors and a Police Officer entered illegally our home / when she was home alone
- 5) Not only having withheld for 14 years personal belongings of me / but also of my wife and my daughter (e.g. photos of my daughter`s childhood etc.)
- 6) Lastly and most importantly, / ignoring the crimes Julius Baer committed in the Offshore world.

(12. ECHR) After the dubious federal court`s ruling / I decided to take my case the fourth time to the European Court of Human Rights as a precedent / which I personally have to finance with approx. EUR 40 000 / I was told by the former German judicial Minister of Justice Däubler-Gmelin, / a supporter of my initiative. /

(13. judges abusing the law) On top of it / I run a campaign that whistleblowers in Switzerland but also globally will not receive a fair trial, / whistleblowing in the Swiss financial industry is a capital crime – / all court rulings related to Swiss whistleblowing as of today lead to guilty verdicts in Swiss Courts one or the other way. / The obvious conclusion is:

Reporting a financial crime or any crime of a MNC in Switzerland is a capital crime!

Worse, / exposing abusive practice of MNC and of organizations of key industries / will not only cause the social, financial and professional death of a whistleblower / it causes a big burden of the entire family and the relatives. /

(14. verdict) My conclusion is /that I do have the mental power and the endurance to continue this fight in favor of truth telling in Switzerland and globally / which I have started in 2002 in the Caymans and continued in 2006 / having turned down CHF 500 000 hush money and the offer to close all legal cases against me by Julius Baer and the Prosecution Office. /

Today / I am at the point where I need the support of the global civil society. / This not only because the Federal Court of Switzerland decided / even though I won the Swiss Bank Secrecy matter in the court room/ that

- I have to pay USD 350 000 or even more in court fees /
- I will not receive any compensation for 217 days in solitary confinement /,
- It will not be considered the fact / that I had a ban to work in the Swiss financial industry for 14 years / due the request of the prosecution office to put me 4 ½ years to prison / and a live long ban of working in the Swiss financial industry /

All of this made me a poor man. / It is even worse the Federal Court of Switzerland has already forced me / to pay my brilliant lawyer with assets out of my pension fund.
